Blender Game Making Contest

15.

ROBOTS!

Here are the final entries for the Blender game making contest 15.

I hope everyone had fun!

You can get the pack containing all the games from the competition here:

New:

People who took part in the contest get 100 points to spend on voting. Those who didn't but still want to vote can do so with a pool of 50 points.

When voting, please fill in the following form and send me a private message:

Game:	Designer:	My Score:	Blender
Mini Robot Soccer	Blender Jones		**2.72 (2.73)**
Mechatronic	Thatimster		**2.72b**
X.A.N.D.E.R	Fredstash		**any**
KWAKTROID; The Kwakening	Nines		**2.73**
Planet Smasher	Battery		**2.73a**
Kaily -The Canceler	RockyMadio		**2.71**
Robo lad in the Lab	Wallmaster		**2.72**
Rogue Bot	cPulsoni		**2.73**
Uranium Blood	adriannetlis		**2.73a**

You've got a pool of 100 or 50 points to spend when voting.

You can't vote for your own game at all, so that's about 12.5 points average for each game, but there's no upper limit to how much you can award to any one game. You could give all 100 points to a single game if you wanted.

If there's a tie at the end, we'll put it to a public vote for the top ranking games, but I don't expect that to happen again! ☺

Thanks to everyone for taking part!
